About the event - Auroville ESG Retreat

The ESG Retreat is a one-of-a-kind event designed for individuals passionate about sustainability, taking place in Auroville, a place dedicated to the vision of "**A City the Earth Needs**," often referred to as the "**City of Dawn**." Over the past five decades, Auroville has been at the forefront of implementing diverse sustainability initiatives, including renewable energy and storage, water management, waste management, forest area conservation and preservation, and organic farming, among others.

A Few interesting facts about Auroville:

- It is a location near Pondicherry which was inaugurated on February 28th, 1968, with the participation of 124 nations.
- Auroville was recognised and taken up by the Government of India, under the Auroville Foundation Act 1988, which was passed by the Indian Parliament.. The Governing Board selected by the Government of India consists of seven prominent Indians in the fields of education, culture, environment and social service in the areas of Auroville's ideals.
- UNESCO had endorsed the project of Auroville through four resolutions, in 1966, 1968, 1970, and 1983 and their association dates back in 1966,
- Auroville has 3000+ inhabitants, drawn from some 60+ countries.
- It has within it a landscape 3000 Farms over 372 acres, 80+ waste water treatment plants, 43+ afforestation projects and 1244 acres of forests.

Over the years, Auroville has won international acclaim for its efforts in sustainable development practices that are unfolding in the context of the individual and collective transformation of consciousness.

KEY SESSIONS

The ESG Retreat will share the true “**Spirit of Sustainability**” through various sessions on aspects of **E, S & G**, bringing forth the experiences of various professionals in each aspect. It is an enriched experience of all at once material, economic and psychological with a spiritual foundation.

The **two-day session** is designed to comprehensively address the various facets of **ESG**, encompassing the practical aspects of execution, solutions, and challenges, in addition to imparting subject matter expertise on ESG components. These sessions will provide a concise outline of the program, incorporating both on-site visits and indoor sessions to share insights gleaned from over five decades of Auroville's experience.
